

Technical Bulletin No: XT307-926
Issue Date: Oct 02
Vehicle: X-Type 2002-MY
VIN: C20885-C62592

Degradation of Shift Quality

Problem

The automatic transmissions on specific 2002 MY X-TYPE vehicles within the above VIN range have the potential to contain a manufacturing flaw in the reverse clutch pack that may lead to transmission slippage and ultimately, if the corrective action detailed in this bulletin is not completed, transmission failure. Vehicles with transmissions built in July and August 2001 are more likely to experience this failure.

Action

Identify and contact the drivers of those vehicles listed in this bulletin and arrange for the vehicle to be brought into the workshop, at the driver's earliest convenience, for the transmission control module (TCM) to be re-flashed with the latest level of transmission software.

VEHICLES REQUIRING THIS SERVICE ACTION

2.5L VIN Range 2XC20885-2XC62592
3.0L VIN Range 2WC20885-2WC62592
